

After you Login with your Google Account...

Reminder: The Applications are connected to your Google Account

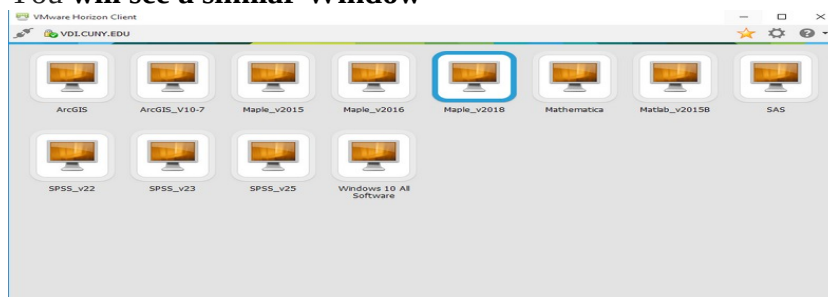

1. Open the **Google Chrome Web Store** from the Launcher.
2. Browse apps by category there, or use the search box to find a specific **app** for your **Chromebook**. ( **Horizon vmware client** )

3. After you have found the **app**, press the **Install** button on the **app** page.
4. The **app** will download and **install** to your **Chromebook** automatically. It will now appear in the Launcher.

5. You will be asked to type the CUNY Server Address  
**VDI.CUNY.EDU**
6. Enter your CUNY Credentials  
**Username@login.cuny.edu**  
**Password**
7. You **will** see a similar **Window**

8. Now you can select your Machine as per the Instructions of your Professor
